TWO STEPS.

The Last One Helps the First.

A sick coffee drinker must take two steps to be rid of his troubles and get strong and well again.

The first is to cut off coffee absolutely. That removes the destroying ele-

ment. The next step is to take liquid food (and that is Postum Food Coffee) that has in it the elements nature requires to change the blood corpuscles from pale pink or white to rich red. and good red blood builds good strong and healthy cells in place of the broken down cells destroyed by coffee. With well- boiled Postum Food Coffee to shift to, both these steps are easy and pleasant. The experience of a Georgian proves how important both

"But in 1900 I read of a case similar to ours where Postum Coffee was used in place of the old coffee and a complete cure resulted, so I concluded to get some and try it.

"The result was, after three days' use of Postum in place of the coffee I never had a symptom of the old trouble and in five months I. had gained from 145 pounds to 163 pounds.

"My friends asked me almost daily what wrought the change. My answer always is, leaving off coffee and drinking Postum in its place.

"We have many friends who have

been benefited by Postum. "As to whether or not I have stated the facts truinfully I refer you to the Bank of Carrollton or any business firm in that city where I have lived for many years and am well known." Name given by Postum Co., Battle
